Message

At the LQ store in Wellington, we have been manager-less for the past 6 months but that hasn't stopped anyone's dedication and commitment to the store. Because of this, we have picked up tasks and roles which we normally wouldn't be doing with a manager. As senior members, Aaron and Samson have taken a more active role in the admin side of running the store. This includes transfer of stock, stock take, VM, banking, repairs and general store maintenance and so this gave Alex and Karen more focus to push sales. Marco from Tawa has also been a huge help in covering shifts as all of us are uni students and often are packed with classes or assignments.

As we are working more shifts together with each other, we have all grown closer and appreciate each other as a team and also as friends. Some of our favorite memories at SS have included the many jokes and chats shared amongst the team and we have gained some good friendships and experiences out of it. If someone is unsure of something, there will always be someone else that is happy to help and patiently walk through things with them. The girls have relied heavily upon Aaron and Samson when they are unsure or confused about something. We are all happy to speak up and ask if something is wrong and this has helped us all grow and mature towards becoming a better Sunglass Stylist.

Through clear and open communication, we have been able to handle the operations of running the store without a manager. We have become a better working team and have created friendships with each other and so we are always excited when coming to work.

We would also like to thank Liz and Raji for being so patient with us and helping out when needed.
